SKILLS

- **Languages:** C++, JavaScript, C, Python
- **Web Technologies:** HTML and CSS
- **Tools/Platforms:** MySQL, MS Excel, Power BI
- **Soft Skills:** Problem-Solving, Decision Making, Project Management, Adaptability

INTERNSHIP

- **GauravGo Games Technology Pvt. Ltd | [Link](#)** Jan '2024 – Jan '2024
 - **Web Development & Hosting Intern**
 - Built and deployed fully functional web applications and gained hands-on experience in real-world development and hosting environments
 - Developed and hosted a portfolio website with clean design, responsive layouts, and proper deployment setup
 - Worked on frontend development and hosting tasks, including page structure, styling, and deployment steps
 - **Tech stacks used:** HTML, CSS, JavaScript, Hosting Tools

PROJECTS

- **File Compression and Decompression (Huffman Coding) | [GitHub](#)** Feb '2026 – Mar '2026
 - Developed a lossless file compression and decompression system using Huffman Coding, achieving up to 60% reduction in file size while ensuring accurate and reliable data reconstruction
 - Implemented the complete encoding and decoding pipeline using priority_queue (min-heap), bit manipulation, and optimized file I/O, enabling efficient and high-speed processing of binary data.
 - Designed a custom binary file format (.huff) to store frequency tables and metadata, allowing deterministic decompression across different file types and input data
 - **Tech stack used:** C++, STL (priority_queue, vector, map), File I/O, Bit Manipulation, OOP
- **College Website Development (Raghuraj Pratap Singh Mahavidyalaya) | [GitHub](#) | [Link](#)** Jan '2026 – Feb '2026
 - Designed and developed a responsive static website for Raghuraj Pratap Singh Mahavidyalaya, providing structured information about courses, academics, and institutional details
 - Built the frontend using HTML, CSS, and JavaScript, focusing on clean UI design, intuitive navigation, and accessibility for students and visitors across devices
 - Deployed the website using GitHub Pages and configured a custom domain via Hostinger, gaining hands-on experience in real-world hosting and domain management
 - **Tech stack used:** HTML, CSS, JavaScript, GitHub Pages, Domain Management (Hostinger)
- **PyList — Dynamic List Implementation in C++ | [GitHub](#)** Oct '2025 – Nov '2025
 - Built a custom data type capable of handling multiple data types using a doubly linked list, designed to mimic the flexibility of Python's list structure
 - Added features such as append, insert, pop, remove, slice, reverse, extend, and operator overloading
 - Implemented a hashing-based indexing system using unordered_map to enable faster element access
 - **Tech stack used:** C++, OOP, Data Structures and Algorithms

CERTIFICATES

- Networking Basics – Cisco Networking Academy | [Link](#) Sep '2025
- Mastering Data Structure and Algorithms – LPU | [Link](#) Jul '2025
- Programming with JavaScript – Coursera | [Link](#) Feb '2024
- Responsive Web Design – FreeCodeCamp | [Link](#) Dec '2023

ACHIEVEMENTS

- **Star Badges on HackerRank:**
Earned 5-Star badges in C++, Java, Python, and a 3-Star badge in Problem Solving on HackerRank
- **Coding Practice:**
Solved 300+ DSA problems on LeetCode, GFG, HackerRank, and Code360

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
• **Bachelor of Technology - Computer Science and Engineering; CGPA: 7.8** Aug '2023 – Present
- **Noorjahan Children School** Azamgarh, Uttar Pradesh
• **Intermediate; Percentage: 68%** Apr '2020 – Mar '2022
- **SD Public School** Jaunpur, Uttar Pradesh
• **Matriculation; Percentage: 67%** Apr '2019 – Mar '2020
